POST 1 · POOL SERVICE · TIP

Quick winter pool check

Pool season may be quiet, but your pool still needs a little attention. 🌊 Keep leaves and debris off the cover or out of the water, make sure the cover is secure, and keep the water level where your pool pro recommends. Leave water testing and chemicals to your pool professional. Want regular winter check-ins so there are no surprises in spring? Call [YOUR COMPANY] at [PHONE].

POST 2 · POOL SERVICE · TIP

Pool chemical safety at home

Pool chemicals deserve respect. ⚠️ Never mix them together, and keep them in their original, labeled containers. Store them in a cool, dry place out of reach of kids and pets, and always follow the label. The simplest way to stay safe? Let your pool pro handle testing and balancing. Questions about your pool? Call [YOUR COMPANY] at [PHONE].

Do I need pool service in winter?

Pool's not in use, so why pay for service? 🤔 Even a quiet or covered pool can collect debris and drift out of balance over the winter. Small problems left alone can turn into bigger, more expensive ones by spring. What your pool needs depends on your pool and your weather. Ask [YOUR COMPANY] at [PHONE] what plan makes sense for you.

POST 4 · POOL SERVICE · MYTH-BUSTER

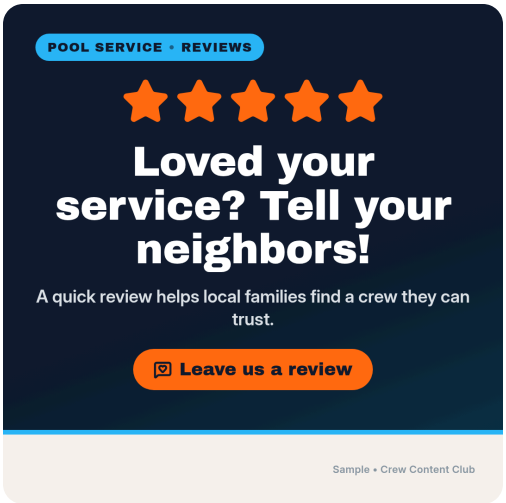

Clear water = clean pool?

Myth: if the water looks clear, the pool is clean and balanced. 💦 Fact: water can look crystal clear and still be off balance. That's why regular testing matters, even when everything looks fine. Leave the testing and chemicals to a pro. [YOUR COMPANY] can keep your pool in check all year. Call [PHONE].
